

Reference Letter

SIPIL Plastic Group have been using ProVIEW – ProMANAGE Production Management System since 2011 in Eskişehir Plant and in 2015 in Manisa plant with a considerable benefit for our production line organisation, quality organisation and analyze.

The system supports out OEE Performances, projects via collected data and detailed reporting tools to recognize losses, reasons, quality degrees, X – R and IMR cards etc. System has wonderful OEE analyzing tools to understand and develop the losses easily.

The system has been installed in two months easily. Operators can easily use the KeyPDT terminals only choosing and entering some variables. Usage of the system is quite basic and easy for technicians and responsables even. The system is very easy in usage also. Hardware parts does not cause breaks in bugs, damages.

System has the ability to extend every special applications of the our plants easily as assembling lines too.

All the projects need the some measures, ProVIEW – ProMANAGE Production Management System is enough for all Production Performance and losses. Visualizations of Operator Performances is provided discipline directly, especially manuel machineries.

ProVIEW – ProMANAGE system is being developed continuously by Doruk to provide much more benefit to the industry. Some new software and hardware additions brings new ideas and visions to the our Manisa and Eskişehir plants responsables to extend effectiveness and the way of doing production for the operators. We would like to Thanks for all Doruk firm employees for this Professional work and system.
